The State Practice of India and the Development of International Law

Dynamic Interplay between Foreign Policy and Jurisprudence

Bimal N. Patel, Gujarat National Law University

The State Practice of India and the Development of International Law by Bimal N. Patel provides a critical analysis of India's state practice and development of international law. Providing insight into the historical evolution of Indian state practice from pre-1945 period through the 21st century, the work meticulously and systematically examines the interpretation and execution of international law by national legislative executive and judicial organs individually as well as collectively. The author demonstrates India's ambitions as a rising global power and emerging role in shaping international affairs, and convincingly argues how India will continue to resist and prevent consolidation of Euro-American centric influence of international law in areas of her political, economic and culture influence.

READERSHIP:

All interested in public international law, relations between foreign policy, jurisprudence, legal history and international law, international relations and studies on India in general.
