Instructions:

- Read the questions properly and write the answers in the given answer book.
- The respective marks for each question are indicated in-line.
- Do not write anything on the question paper.
- Indicate correct question numbers in front of the answers.
- No questions or clarifications can be sought during the exam period, answer as it is, giving reason, if any.

- | | Marks |
|---|--------------|
| Q.1 'Structuring the public –private partnerships (PPP) in infrastructure could be examined amongst 3 generic options.' Explain the 3 generic options. | (7.5) |
| Q.2 The presence of vast number of participants in the development of Infrastructure project with private participation calls for a complex web of legal documentation. Elaborate on the essential documents. | (7.5) |
| Q.3 There are various categories of project formats of PPP infrastructure projects. Elaborate and explain the following:
(a) BT.
(b) BTO
(c) LROT
(d) DOT | (7.5) |
| Q.4 Check the correctness of the statement, correct if incorrect and justify your answer:
(a) The public sector has not only been inefficient in terms of the time, costs and quality of service but has also virtually ceased to be accountable. Non- performance or the failure to achieve the agreed outcome is penalized.
(b) Development planning in any country can follow two broad models – it can either be an integral part of the political decision making process or it can be divorced from politics where technocrats keep a firm hold on the planning process as a matter of rational and efficient management. India follows the first model and hence infrastructure projects are built on better economic outputs.
(c) India's implementation flowed from the planning process, indicating directions and specific goals for infrastructure development projects. | (7.5) |
